

Andrew Co. Republican.

TERMS: \$1.50 per year, in advance.

FRIDAY MORNING, MAY 15, 1874.

CURRENCY.

The money power of the country is located in the New England and Middle States, and the people of those States are naturally very loth to see it depart from them, and for this reason oppose all projects that have for their object the cheapening of money. They contend that there is already money enough in the country. Let us see, therefore, how the amount of money in that portion of the country in which we are especially interested compares with that in other countries.

The average amount of circulation to each person in the countries and States named below, is as follows:

France	\$34.62
Germany	25.60
England	24.25
Virginia	3.25
North Carolina	1.70
Rhode Island	61.50
Massachusetts	40.48
Connecticut	33.48
New England States	31.68
Southern States	2.91
Western States	7.00
Pacific States and Territories	1.82

With this record staring him in the face, the New Englander tells us there is enough money in the country; that North Carolina has enough and Rhode Island not too much; that an average of \$2.91 to each Southerner is just right, and that an average of \$31.68 to each New Englander is just right also!

THE INDIAN PROBLEM.

In the St. Joseph Herald of Friday last appears the speech entire of Hon. I. C. Parker, Chairman of the House Committee on Indian Appropriations, with regard to the status and treatment of the Indians. Mr. Parker presents an able and exhaustive argument against the bloody policy of extermination. A strong point in the speech is the duty devolving upon this enlightened Government to civilize, educate, and thus Christianize these people, who were once powerful enough to dictate terms to those who now seek to grind them in the dust. He contends that the least the Government can honorably do is to prepare them for the process of assimilation, by which they make take their places in the body politic without corrupting or poisoning it. Numerous instances of the progress made by several tribes are cited. The speech is replete with interesting and pertinent statistics, and bears evidence of much thought in preparation. He is averse to the Indian Bureau being transferred to the War Department.

Hon. Isaac C. Parker has the appointment of two cadets to the Naval Academy at Annapolis, one to fill the place of a cadet midshipman, and the other the place of a cadet engineer. These vacancies Mr. Parker will fill from applications made in this Congressional District, outside the city of St. Joseph. Each boy must be between the ages of sixteen and twenty years. Here is a chance for a couple of bright, intelligent young men to receive an excellent education and eventually distinguish themselves.

ARKANSAS troubles are apparently no nearer settlement than ever. President Grant recommended both Governors to retire their forces, and give the Legislature a chance to decide who is Governor, to which Baxter acceded, but Brooks did not. A quorum was finally obtained in the Legislature on Wednesday. A joint committee was appointed to prepare an address to the President in reference to the difficulties. A speech was made and loudly applauded, wherein it was declared that Baxter was rightfully Governor. A street skirmish between the contending parties occurred on Wednesday, in which two men were wounded.

We clip the following from the Agricultural Report for April and May:

Nearly all the wheat of Missouri is fall sown. For several years past its wheat returns have been unpromising, but there is very little cause for complaint the present spring. Some correspondents state that the prospect has not been better for thirty years. It is generally of good color, well rooted and vigorous. In Perry "croakers say it is entirely too fine for the season." The Polk county correspondent says:

"Never looked better, but the chintz-bug is bound to take it. Millions of them have just put in an appearance. Every shelter for them during the winter was literally filled."

UNDER the new law for the preservation of fish it is made a misdemeanor to net fish in any stream or lake in this State, except where such stream, pond or lake is wholly upon the premises of the person netting them.

A MAJORITY of the papers in Indiana, Missouri and Kansas oppose Grant's veto of the currency bill.
